Parent-Child Mother Goose® offers a model which uses mutually enjoyable activities (songs, rhymes, finger plays and storytelling) to support attachment and interaction between parents (as well as carers, relatives and staff working with young children) and their infants and young children.

These positive relationships are critical for promoting children’s health, well-being and achievement outcomes throughout later life; forming a strong foundation for life.

The program also enables families to form new friendships and neighbourhood connections, and to obtain information about services in a highly supported manner.

Teacher Training Workshops are taught by accredited facilitators where participants will:

- Learn about the Parent-Child Mother Goose Philosophy
- Learn how to run sessions and how to reach target audiences
- Learn rhymes, songs and storytelling techniques
- Receive a package of resources
